

The Mold Buddy Prayer

By Toxic Mold Activist/Advocate Letitia Peters

Letitia Peters states, "Once I lost EVERYTHING and wrote my first prayer, The Mold Buddy Prayer, then I had God's attention and I gave God my full attention. I would not advise anyone to not ignore God. I took the long way around."

Here's the first prayer that I wrote."

LET'S PRAY:

Heavenly Father, we come together to pray for our mold buddies. You said in Matthew 18:20 "For where two or three are gathered together in my name, there am I in the midst with them." Many of the mold buddies, including myself have lost some friends and family members, our careers, our health, our finances, our homes, and our quality of life. It has destroyed every aspect of our lives, except SPIRITUALLY. We praise and worship you God. We call upon you, God to restore what the enemy has taken from us. What was meant for evil, you will turn it around for good. We are no longer mold victims, but MOLD VICTORS. We are believers. We will speak things that are not as if they were. All things are possible with you, God. We may have problems, but you are a BIG GOD who will in a matter of time turn around our adversities into triumphs. Our bodies will be healed. Our finances will be restored. Our friends and family members will support us. We will have VICTORIES in EVERY aspect of our lives. We are conquerors who will win against our enemies. You are a righteous God. We ask that you turn non-believers into believers. In times of distress, we will call upon you God and ask that you take over because we believe that you are in control over our lives and you will supply our needs. We have the favor of God upon us. We will succeed. God, we pray that you will move mountains that we could not move ourselves. God, you are supernatural and you will continue to perform miracles in our lives. We trust you Lord with all thine heart because you are our rock, our fortress, our strength and deliverer. We are obedient, anointed, and equipped. We are no longer worried or fearful. Special prayer(s) go out to (say name(s) of the mold buddy(ies) and his/her (their) request(s). When one door closes God, you will open another one. In Psalm 37:4, it states, "Delight thyself also in the LORD: and he shall give thee the desires of thine heart." God, we ask that you give us the desires of our heart and you will restore to us what the enemy has taken from us. Hear me, O Lord my God that you will answer this prayer. We ask this in your name. AMEN

Please continue to pray for us, and all of those out there having similar situations.

I didn't want what has happen to me to happen to others, especially to children. Children, like Arielle should be enjoying their childhood and not have to go through this horrific environmental disease. **Toxic mold is destroying the lives of many families like Arielle Murray. Is it preventable? Yes. If a teenager can understand the seriousness of being exposed to toxic mold then, why can't adults?**

Mold....The Destroyer

Only 13 years old exposed to mold

People don't understand, even when they are told.

For five whole years, we didn't know what was making us ill

All my parents could say is it must be God's will.

One doctor said one thing, one doctor said another

All I know is I almost lost my mother.

She laid in bed for two whole years
All I saw come out of her eyes were tears.
I kept on saying what's wrong with you
All she said is "Arielle I wish I knew."
Two years before, she took me to school,
She went to my brothers baseball games,
She came and watched me at gymnastics,
She was my mom, she was cool.
Mold took over her life, It took over all of our lives.
All my dad wanted was his old wife.
Then we all started getting sick headaches, and burning nose,
Our whole bodys hurt, from our head to our toes.
It not only effects your body, but also your brain
Once your exposed you will never be the same.
We tried everything we could think of and then lost our house,
All we have now is each other and love,
I pray to God every single night
Make us the way we use to be, make everything alright.

The End
